Dear Neighbors,

16 September 2015

I'm hoping I can interest you in donating a product or service we can auction off to raise the money our kids deserve, making a profound life changing impact on their education. With the help of community members like you we've made great strides ensuring King becomes the best Middle School in the local district.

Kids at private schools get all the educational resources, technology, field trips and books they need. Our kids don't, not unless we as parents step up and find the money for them because LAUSD doesn't pay for them anymore. Kids at private schools get all kinds of tutoring and after school programs. Our kids don't, not unless we find the money for it, because LAUSD doesn't pay for that either. We even have to buy them ink for their printers, batteries for their computers, paint for art class, bats and balls for PE... You wouldn't believe how much LAUSD doesn't pay for anymore!

So that's what's in it for us. What's in it for you is a relentless campaign, to steer our 1900+ families into your establishment, to do business with you instead of your competitors, in gratitude for your gift to their kids. We make it our business to pay you back.

**All donated items need to be received by October 15<sup>th</sup>.** Please mail any gift certificates to the above address. If you need items to be collected please call Renae at (310) 346-1303.

We are the parents of King Middle School. And we love our kids.

Juan Longfellow
